

JSK Polyfilm for Agricultural Mulch Film

To Enhance crop yield and soil health

JSK POLYFILM

JSK POLYFILM- a green pioneer.

JSK Polyfilm resins for mulch films are a unique combination of well-balanced UV and

Mulching films are essential for modern agriculture, offering protection, moisture retention, and weed control.

Discover the benefits and specifications of our high-quality mulching films.

JSK POLYFILM

KEY-FEATURES

- Superior UV resistance for long-lasting performance
- Available in black, silver, and biodegradable options
- Customizable thickness and width
- Promotes early crop growth and higher yields
- Reduces water evaporation and conserves soil moisture

JSK POLYFILM

APPLICATION

- Vegetable farms
(tomatoes, cucumbers,
onion, peppers)
- Fruit orchards
- Flower beds and
nurseries
- Organic and
conventional farming

JSK POLYFILM

BENEFITS

- Suppresses weed growth
- Maintains soil temperature
- Prevents soil erosion
- Reduces fertilizer leaching

JSK POLYFILM

Technical Specification

- Material: Polyethylene (PE) / Biodegradable options
- Thickness: 18–50 microns
- Width: 0.8–2 meters
- Length: Customizable rolls
